a time to reach,

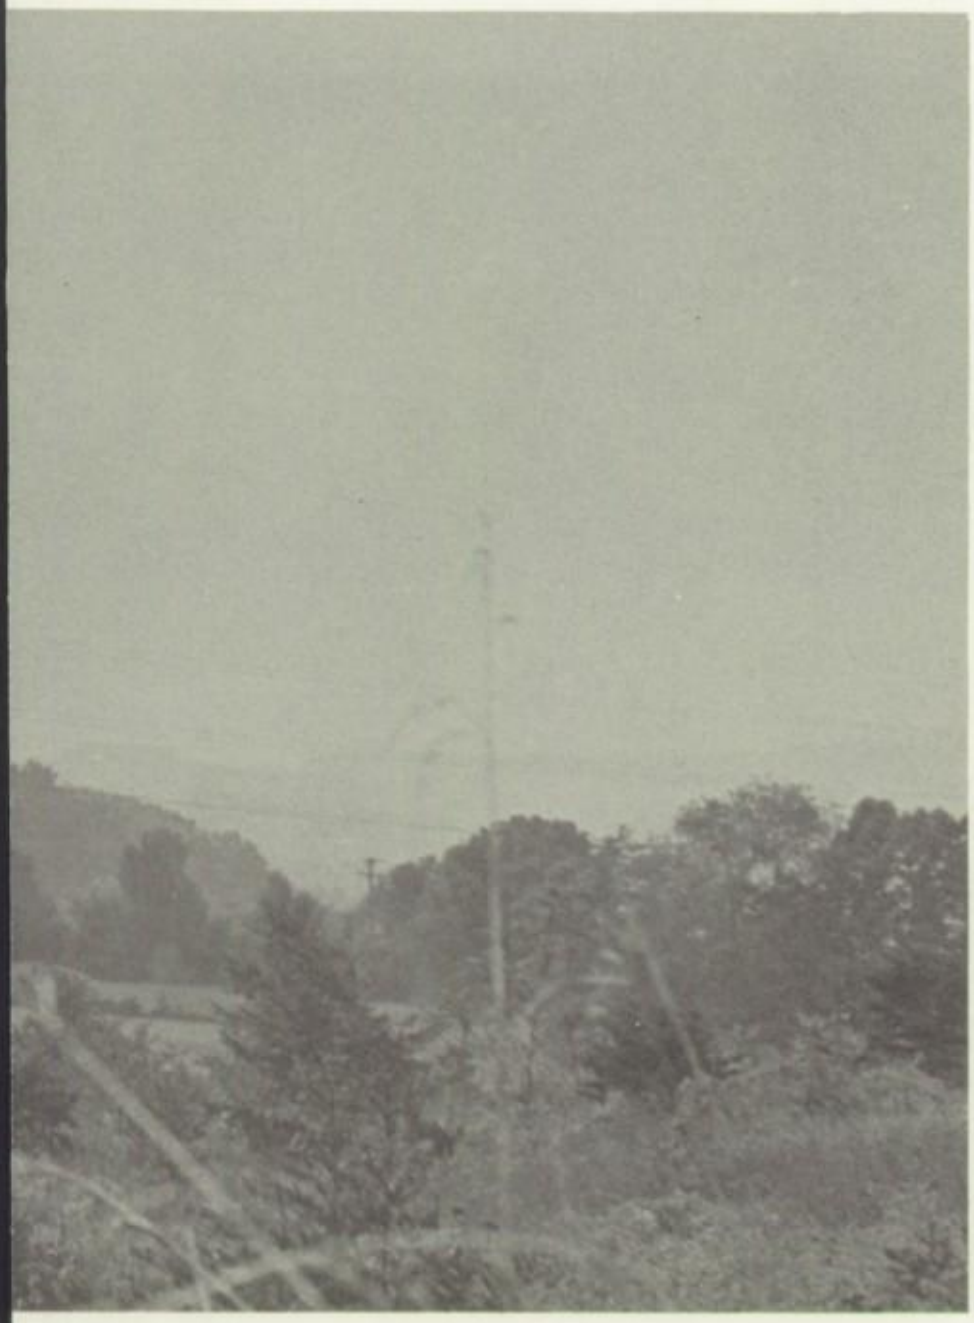
a place to discover . . .

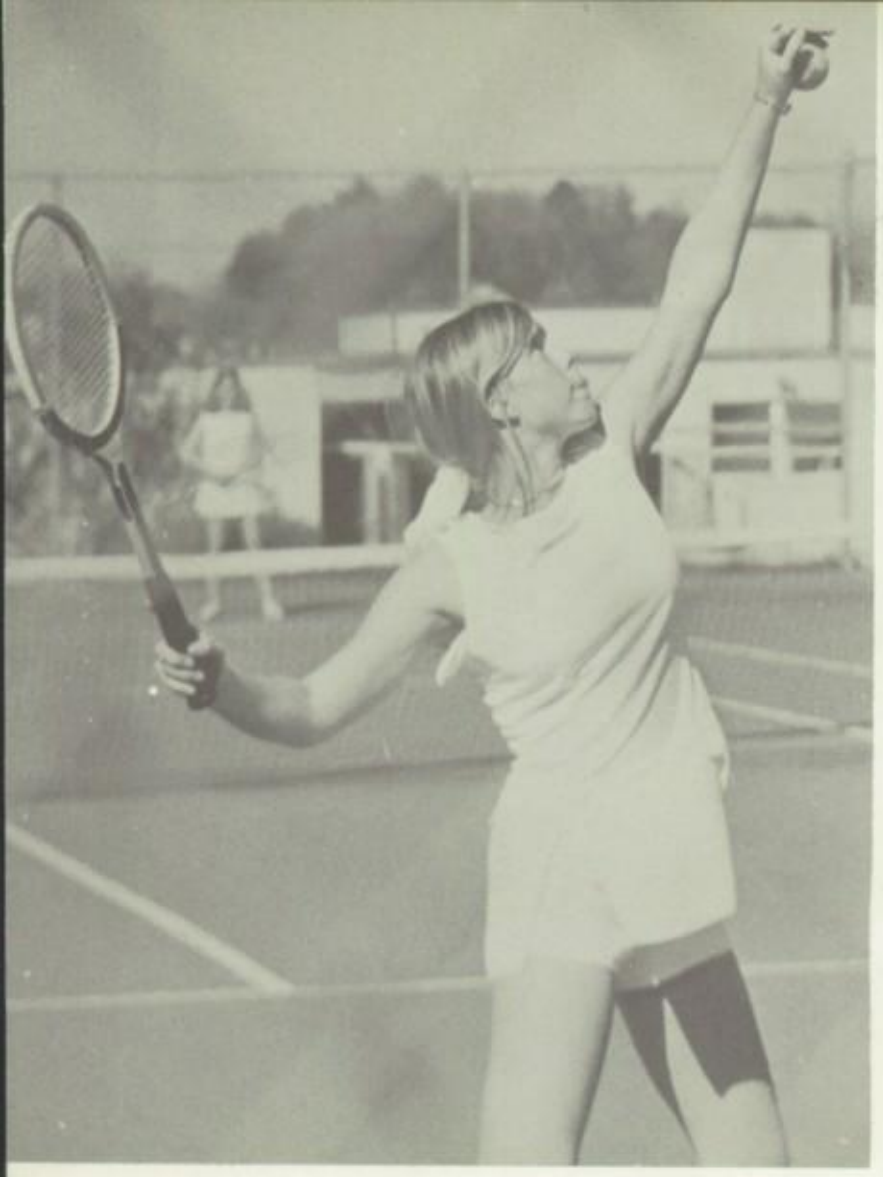
a time to hope,

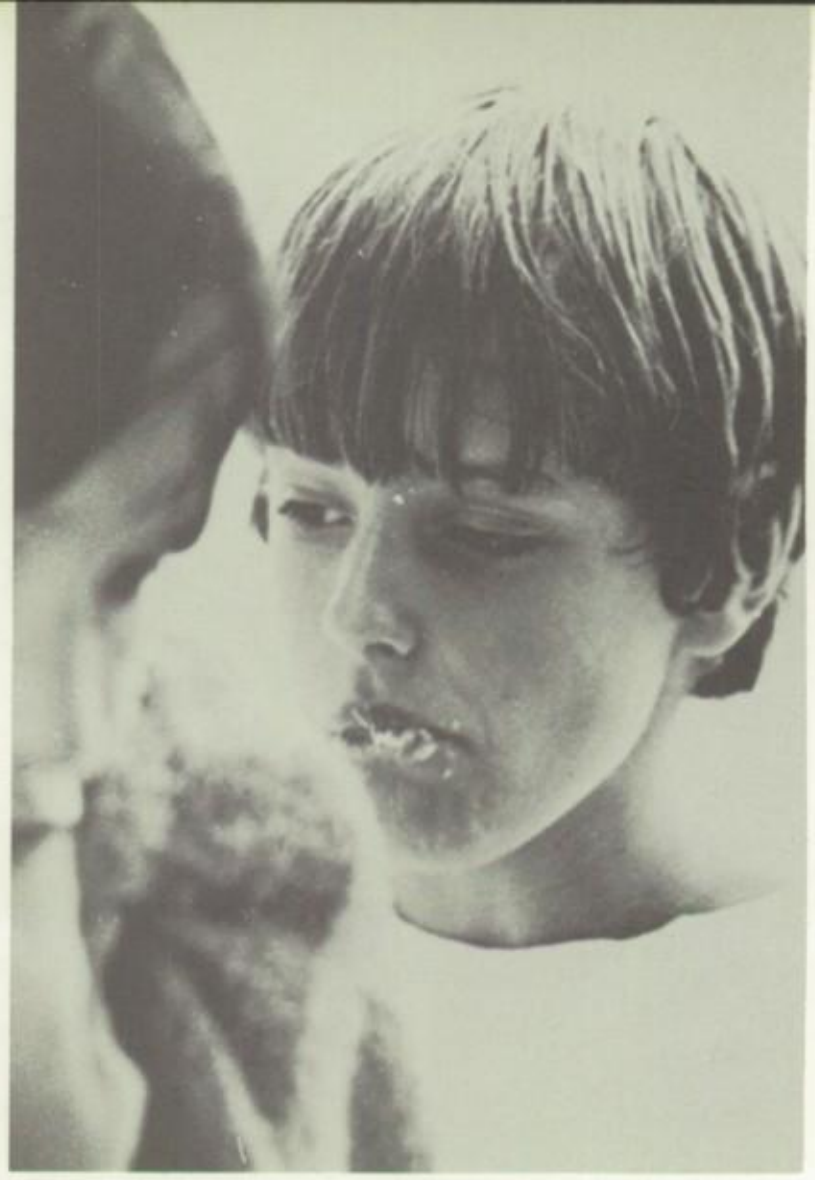
a place to remember . . .

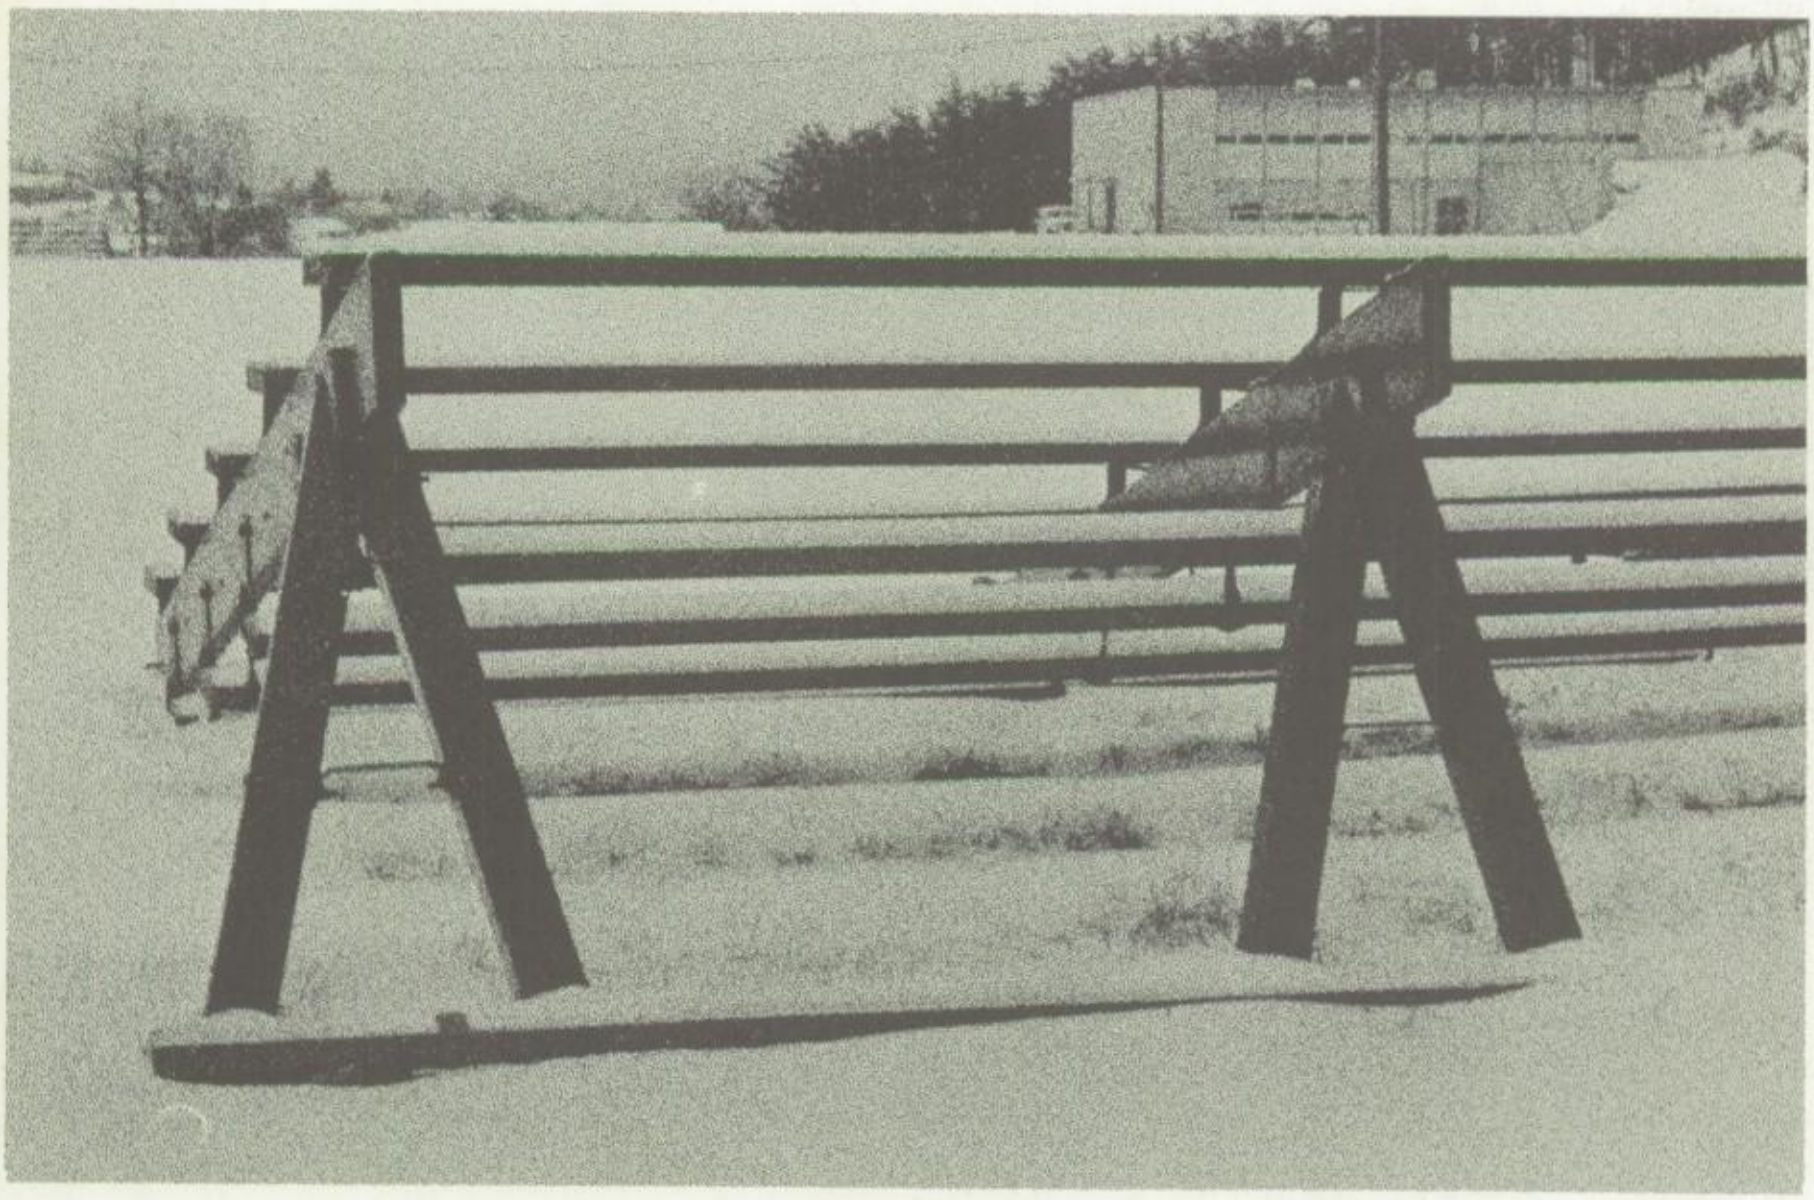
It was the best of times, it was the worst of times, it was the age of wisdom, it was the age of foolishness, it was the epoch of belief, it was the epoch of incredulity, it was the season of Darkness, it was the spring of hope, it was the winter of despair, we had everything before us, we had nothing before us . . .

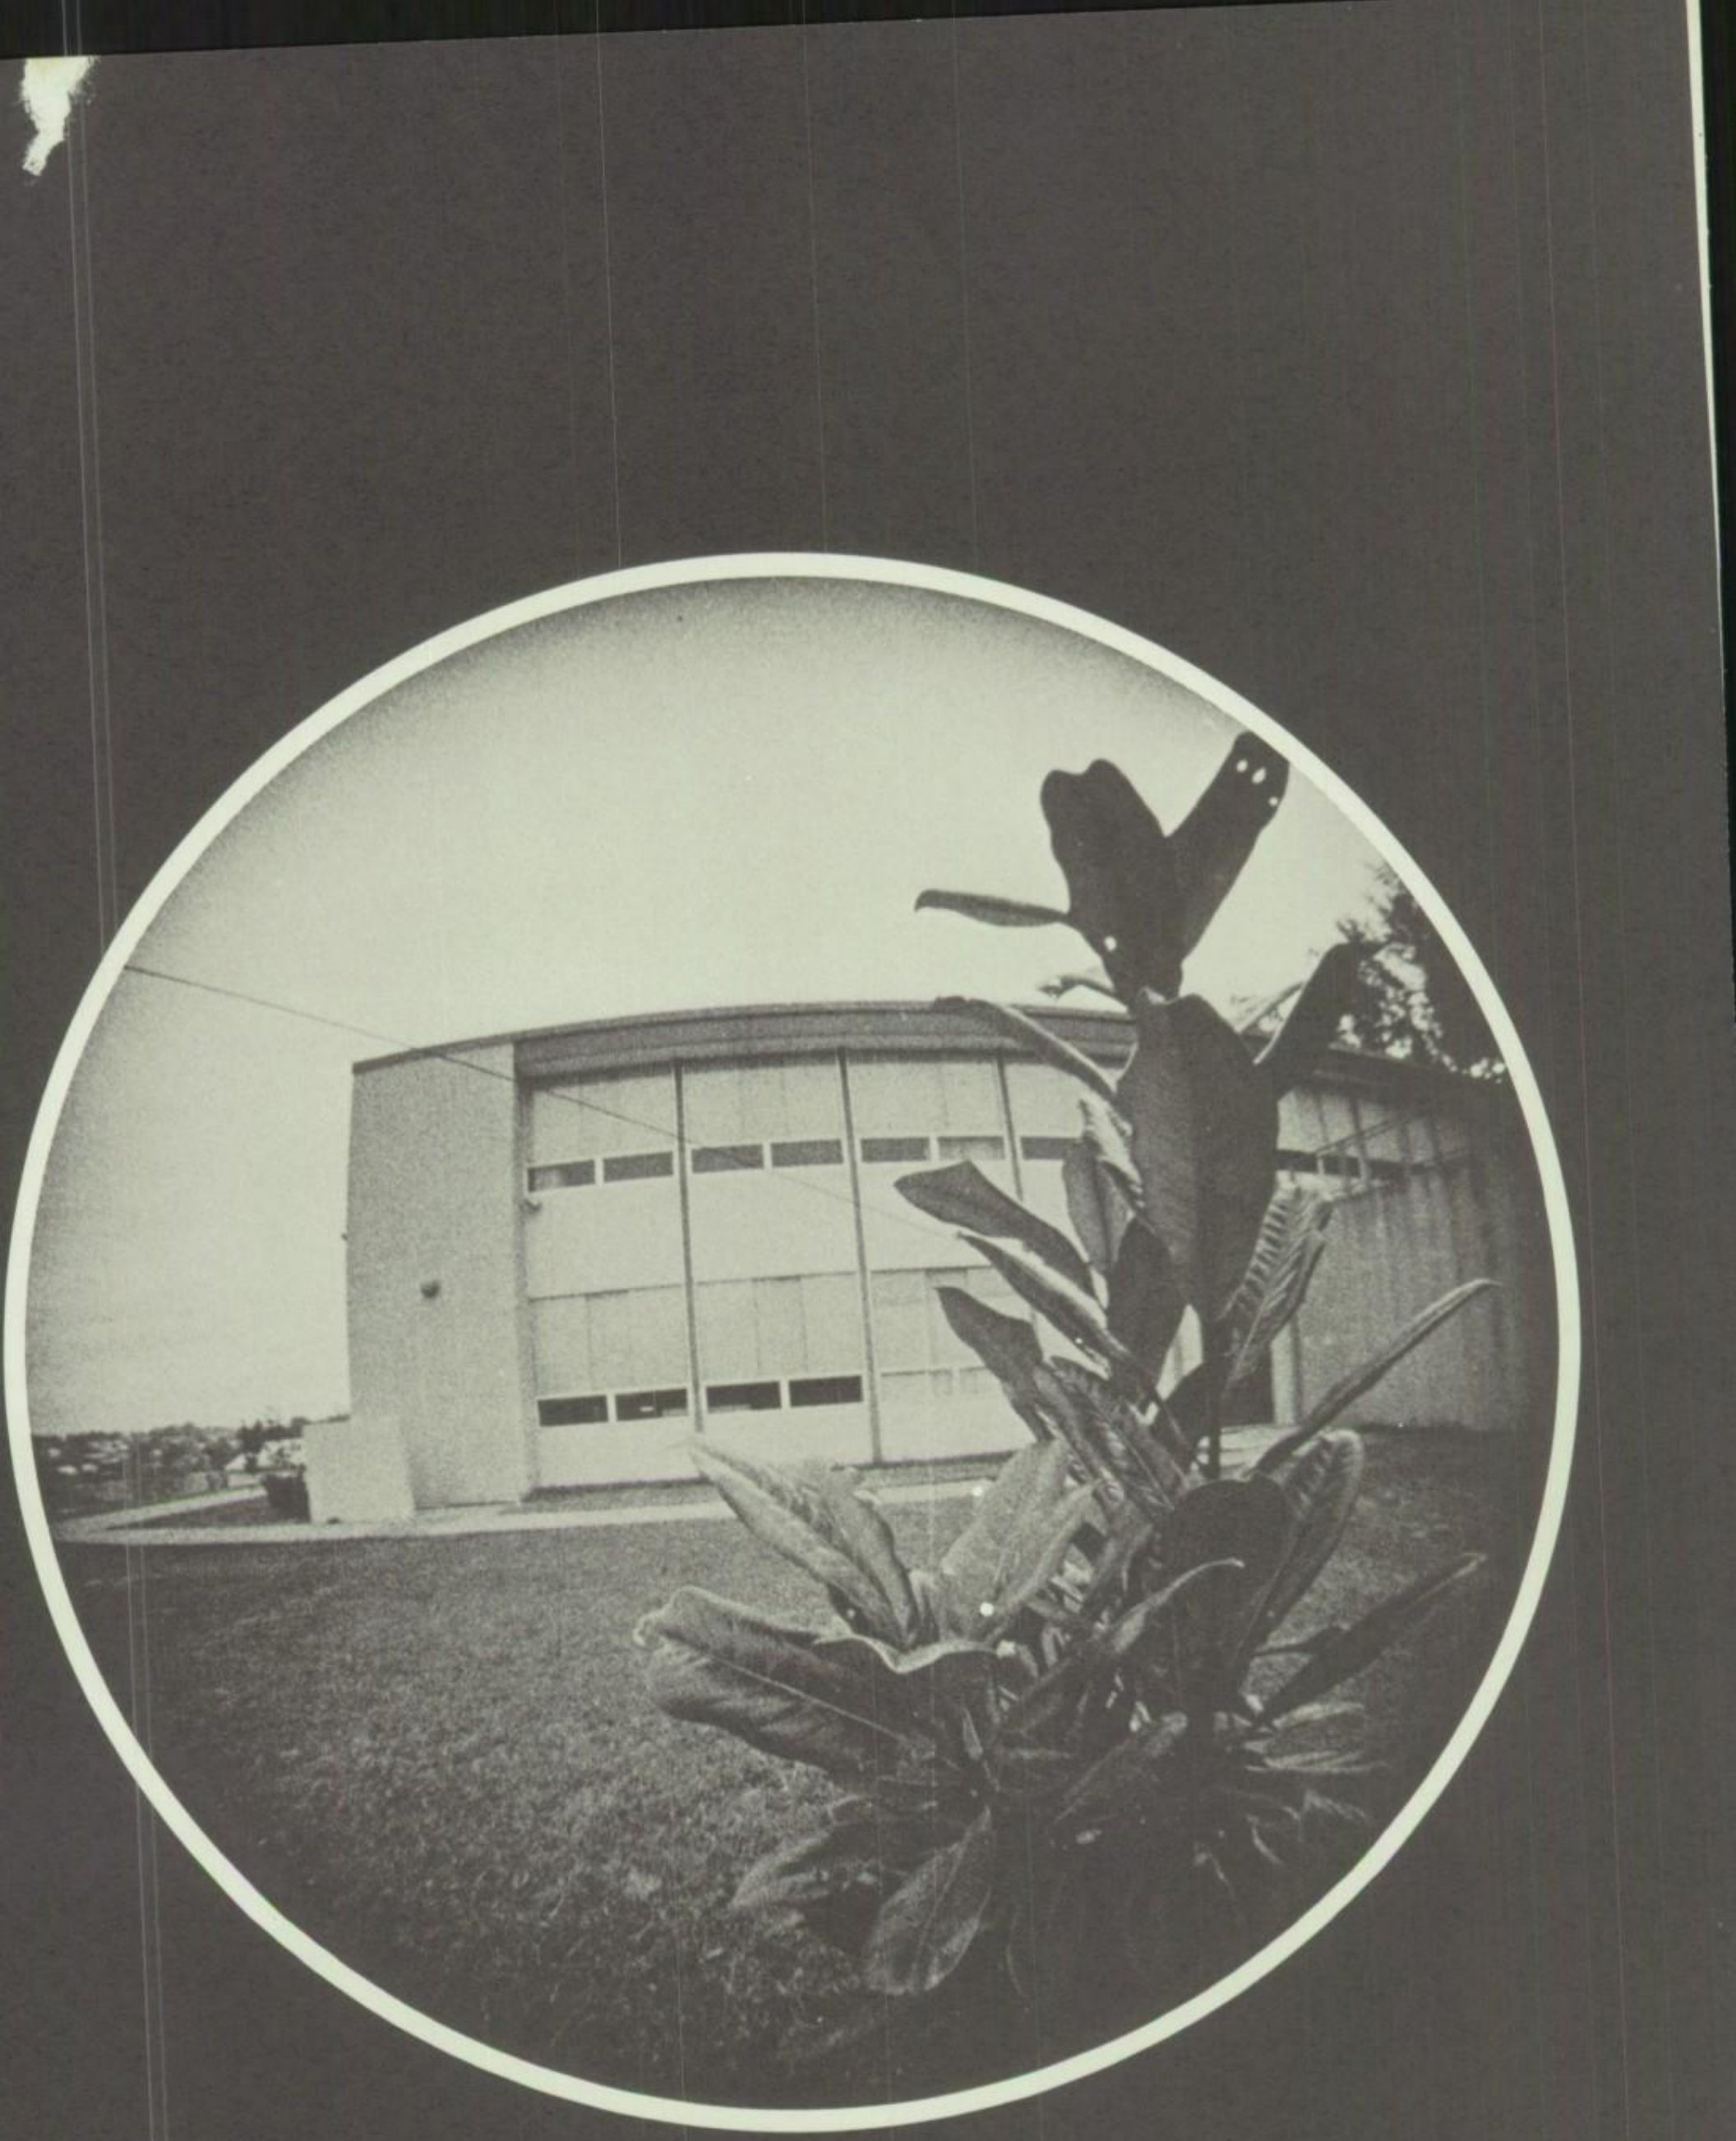
—Charles Dickens









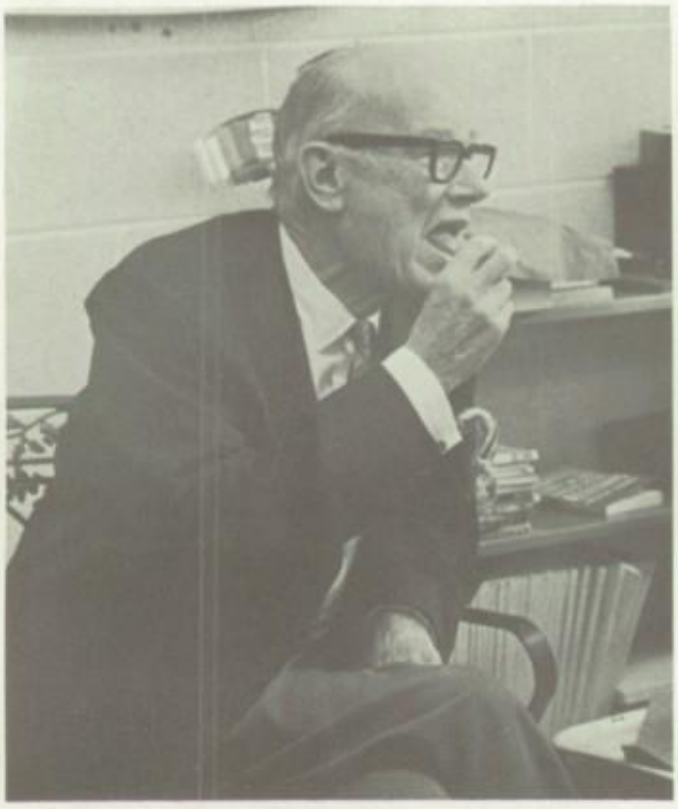


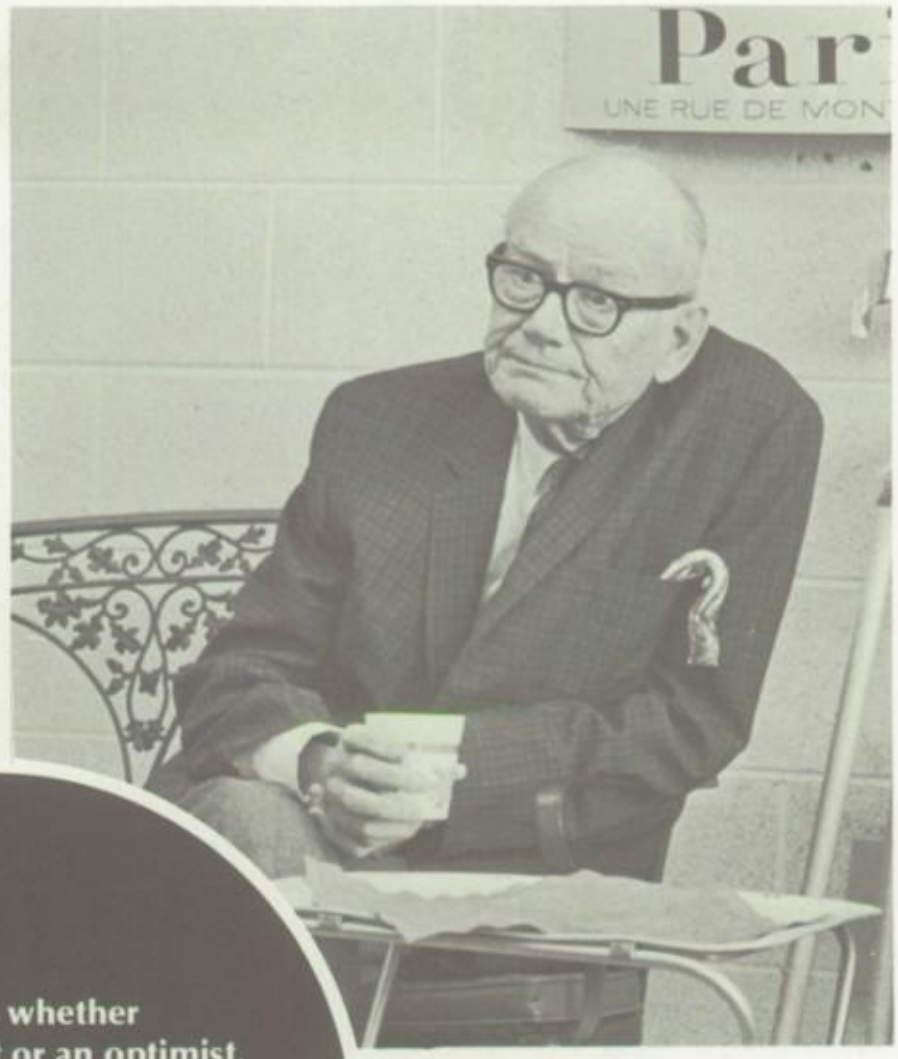
Academics

a time to question,
a place to learn.

In Recognition

Since 1960, as Chairman of the Board of Trustees, Mr. Slack has been invaluable to the development of this school. We publish the 1972 Compass in recognition of his tireless devotion to North Cross.





**To the question whether
I am a pessimist or an optimist,
I answer that my knowledge is
pessimistic, but my willing
and hoping are optimistic.**
—Albert Schweitzer

In 1882 Edison had a great idea.

And it wasn't the electric light.

The whole idea of investor-ownership of electric light and power companies began when Thomas A. Edison and a group of investors financed his first power plant more than 80 years ago.

Since then, investor-owned companies like ours have become an integral part of America's Free Enterprise system. That explains why today we have at our fingertips more electric power than any other country in the world.

And it's this same Free Enterprise system that puts at *your* fingertips greater opportunity, greater expectation for success than can be hoped for by any other young people in the world.

"Farewell to you and the youth
I have spent with you.
It was but yesterday we met in
a dream.
You have sung to me in my aloneness
and I on your longings have built a
tower in the sky.
But now our sleep has fled and
our dream is over, and it is no longer
dawn.
The noontide is upon us and our
half waking has turned to fuller day,
and we must part.
If in the twilight of memory we
should meet once more, we shall
speak again together and you shall
sing to me a deeper song.
And if our hands should meet in
another dream we shall build another
tower in the sky."
